DESTINATION OF THE MONTH

Image - Tenerife, the largest island of the Canaries

THE CANARY ISLANDS, SPAIN
Where Adventure Meets Effortless Relaxation

Mount Teide

Rainbow Lorikeet

Canarian Banana Platano

Often called the "Islands of Eternal Spring," the Canaries are a dream destination in March for those looking to trade the winter blues for dramatic volcanic horizons and perfect sweater weather. Thanks to refreshing winter rains, the islands transform into a lush emerald paradise! It's the "greenest" time of year, with vibrant wildflowers carpeting the valleys.

Hop a cable car to the summit of Mount Teide. From Spain's highest peak, you'll enjoy "otherworldly" panoramas of jagged volcanic craters and frozen lava fields that look more like Mars than Earth.

March is also prime time for whale and dolphin watching. Keep your eyes peeled for fins breaking the surface as you relax on your balcony or lounge by the pool deck, while these majestic creatures migrate through the deep Atlantic waters between the islands!
